DEDICATION

PROF. W. S. CREECY

*To whom we affectionately dedicate this issue of
The Reminder; with whom we have spent a
number of happy years, and from whom we
have received much inspiration and informa-
tion. In him we have found sympathy, kind-
ness and love. . . . In him are combined the
qualities of a real leader and helper.*

PROF. W. S. CRECY

FOREWORD

In publishing this small volume, it is our aim to give the true expression to the sentiment voiced by our schoolmates in their meetings with one another. May it truthfully portray the unlimited affection that exists between them, and may they in the future turn these pages and recall the persons whom they have learned to know and love

Therefore, we offer this book as a record of the characteristics, accomplishments and possibilities of the class of 1929

Class History

ON SEPTEMBER 8th, the door of opportunity, which leads to Rich Square Institute, was thrown open to thirty-six Freshmen, who were in search of the fountain of knowledge. Before much time had expired, we were conscious of the fact that we had entered a new world whose surroundings were strange and novel.

This being our first year in high school, we were very green, and all the high school students gave us the name "greenhorn." To be sure we were greenhorns. To learn how to conjugate "amo" and decline "agricola" seemed impossible. However, the longer we stayed under Prof. Creedy, Latin became of little consequence. During our first year we had many obstacles to overcome and stumbling blocks to move. In fact, the Class of '29 had many clouds of despondency to hang over its head.

We soon organized, electing Luther Morris as president. He, with some efficient subordinates, has served us through these four years. Mrs. Viola Bishop was our class mother during that first year, and a very considerate and capable mother she proved to be.

During the first semester, we moved but slowly and at times our tasks seemed hopeless. We sought to make improvements by decorating our class rooms, and even now the results of our efforts may be seen.

Then came mid-term examinations which chilled our study hearts and discouraged our careful minds. Most of us made the grade and were given the task for the next semester. During the rest of our first year, we prospered greatly, and at the end of the first year we found ourselves one lap nearer the goal.

As Sophomores we were branded with the name, "Sophisticated Sophs." Of course, that made us very indignant. That year we dug a pool of our own, inoculated against the Pierian Spring which gushed the water of perfect understanding. We thought it was an easy task to triumph over the other classes, but soon our big heads became normal, and the end of the year found us clothed somewhat in our right minds.

Class spirit was strong among us. Altho we were not successful in getting our former advisor, we were fortunate in securing as her successor Miss Bessie Broadnax, who was very helpful as a class mother. Under her we were able to give a banquet. This was a delightful affair.

During the year there was need for someone to represent the school in the State Interscholastic Debating Contest. Lucy Faison, an honorable and worthy young lady, and Floyd Conwell joined the debating team, and won honors for the school. We also had a number to distinguish themselves in scholarship and take active part in the athletics of the school. We added a library room filled with books, and thus helped to standardize the school.

Our Junior year was one never to be forgotten. Volumes could be written of this year. Once again we succeeded in getting Mrs. Bishop as our class mother. One who deserves credit for her unselfish service; one who we shall never forget.

By this time the whole class was intoxicated; some never again to be sobered. Those who remained felt an increasing responsibility and desired to make the most of their fleeting opportunities. The third-year work was really more absorbing and interesting than that of the preceding years. We now considered

ourselves extremely brilliant students, and we frequently wrote letters back home using such words as "pertinacious" and "noncommittal."

Before many days had passed, Mr. Webb, who had been our science teacher, deserted us. His vacancy was soon filled, however, by a new teacher, Mr. Campbell.

Besides carrying out our former accomplishments, we prided ourselves for having nine members in the Crown and Scepter Club, the largest representation of any class. Our members held offices in the Sessoms Lyceum, Y. M. C. A. and Y. W. C. A., and took part in the glee club. Had it not been for our singing, Rich Square Institute could not have won second prize in the musical contest held that year in State Normal School, Elizabeth City.

Then came the banquet given by us for the Senior Class. That memorable night will ever remain in the minds of those who were fortunate to be present. The beautifully decorated hall, the gorgeously dressed young ladies, the many tasteful dishes—never will our followers be able to duplicate it.

Senior year began with the class enrollment thirty-three. Many changes were noticeable in our group. Some of our old classmates did not return, but several new students joined us. We were glad to welcome all of these new students, and gave them all the rights and privileges of Seniors.

A new science teacher, Prof. R. C. Fortune, also greeted us. He has inspired and cheered us through the term. We were indeed surprised on coming back from our Christmas vacation to learn that he and Miss Mattie Davis had been united in holy matrimony.

The last deeds of general importance that can be credited to this class are: The ceiling of our English classroom—and presentation of pictures to go in our section room. Although seemingly small in the estimation of some, we feel it is a fitting memorial to this class. That room and the pictures years from now may inspire others to follow our example.

It is recorded that the Class of '29 is the largest class to graduate and contains the largest number of male members. Ours is the only class to attend a president's inauguration. Each attempt of the class as a whole has been successful and we hope to climax this season with a famous class book.

And now comes commencement. It is grievous to note that the original number is not approaching the goal. They are not with us now, but the Class of '29 is proud of their start. The Class of '29 has held together through its four years and in unity has accomplished much. We have studied hard and seriously. We have shared quarrels and wrangles; triumphs and failures. Now our paths will diverge. It is a question, who will continue and who will not.

The members of the class look upon their history with pride, because it will be from the honored deeds of the past that they will receive a greater part of their inspiration to continue seeking the crown of knowledge as they go out into the classroom of life where experience is the teacher.

Class Prophecy

(Old sage seated on ground and stirring in the sand)

I am a sand diviner, fortune teller, magician and prophet. With the aid of this sand, I am come to enlighten you on the destinies of my classmates as they will be in the year 1954.

Listen to my words:

Luther Morris, president of the Class of '29, is now vocational teacher in Hampton Institute. With his wife, he lives in perfect harmony and bliss. He is getting rich selling strawberries (which he ripens by electricity) for five dollars each.

Pearlie Eley is proprietress of the Harlem Cafe in New York City. She is married and has ten sons.

Katie Sanderlin has just published her tenth book of poems, which collection rivals with the works of Shakespeare.

Mary Grant has developed a true hair restorer which will soon be offered to the public. She guarantees it to grow hair 10 inches in two weeks.

Bishop Stallings is the outstanding figure in the sporting world. He owns the most valuable set of diamond studs in Paris, where he now lives.

Who is this I see sick? None other than Claudia Lee, in bed with neuritis, caused by overstrain in giving dancing lessons. Her nurse is Arna Harris. Behold! In walks Dr. Robert Lee Moore.

O'kadelia White and Floyd Conwell, together with their fifteen children, still live in Rich Square. He is the outstanding dentist there.

Lafayette Williams, A.B.M.A., L.L.D., Ph.D., is president of Chicago University. He has for co-workers Maude Casper, heading the History department, and Lucy Faison, in charge of all Latin.

Lillie Askew is in quest of a husband.

Annie Stephenson is Domestic Art teacher in State Normal School.

Marcia Lewis had been married equally as long as Ellen Moore Clark. Marcia is the mother of seven sons and no daughters, while Ellen Moore is the mother of fifteen daughters. They are still staunch friends and live side by side.

Roland Moore, the class minister, is pastoring a fine church at George, N. C., near Rich Square, and has twelve members on the church roll. His wife, Arimantha Williams, plays for his choir of three members.

Willia Maggett is High School Supervisor of Northampton County.

Freddie Maggett is married to James Freeman. Their family is being taken care of by the Salvation Army, because they have so many children they cannot support them.

Lucy Gatling is a teacher in Piney Grove School. She has taught there for seven years.

Maude Cherry is the English teacher at Washington High School, Raleigh.

Maudie Mae Vaughan is conducting a beauty parlor in Philadelphia.

These marks are not quite clear (makes marks in sand) now.

Montrose Griffin is teaching music in Howard Conservatory.

Ethel Walton is Librarian at Hampton.

Lydia Boone is head nurse at Freedman's Hospital.

Arisulene Ryan is matron of the girls' dormitory at Rich Square Institute.

The Marks are no more.

Now, that I have told your future, there is no need for you to err. Follow the right track and arrive at the right destination.

—LINWOOD CREECY.

Class Poem

Here, summoned by traditions sweet,
We in our chapel once more meet,
A band of thirty, tried and true—
Sons and Daughters of the gold and blue.

The lessons which our teachers taught,
And the prize for which we've fought,
Inspired us to attain the crown
Of knowledge, success, and renown.

Long, long the way our feet have come,
And thorny, too, and rough to some;
But now the goal salutes the gaze—
The last of many high school days.

The idleness, folly, and neglect,
With which our pathway was bedecked,
We trust, will not our labor spoil,
As we in life's field go to toil.

When we view the fading past
And dream of days that fled so fast,
Full many a thorn which once was ours,
Seems all a-blossom now with flowers.

We've come, O Duty, thirty strong,
Slaves of right, the foes of wrong,
May thy hand of blessing ever rest
On him who doeth God's behests.

Goodbye, dear school, but not farewell,
In other schools we go to dwell;
But ever onward we go to prove
Ourselves most worthy in every move.

And when in distant years we turn
Our footsteps where thine alters burn,
Always holding thy banner high,
We pledge our best, dear R. S. I.

GOOD ENGLISH CLUB

The English Department organized the Good English Club during the school year '29 with fifteen members. All students who make and maintain a grade of 85 per cent or above, and the same time make a passing grade in all other subjects, are eligible for membership in this club.

The purposes of such a club are: to better the English of our fellow-students; to offer an opportunity for better self expression, and a more intimate acquaintance with masters in literature.
